

## Pre-Juvenile 1

### Forward and Backward Perimeter Power Stroking

The skater will perform four alternating forward crossovers separated by strong forward inside edge transitions. The end pattern consists of two forward crossovers followed by a LFO open stroke; then a RFI open mohawk followed by one or two backward crossovers. All end pattern steps should be performed with an even cadence except the LFO open stroke, which should be held for two counts. The second side of the pattern resumes with four backward crossovers separated by two-foot transitions, also known as a power push. Skaters should take care to perform the transitions on two solid inside edges. The second end pattern consists of three to five backward crossovers. Introductory steps are optional.

Forward focus: Power and extension

Backward focus: Power and edge quality

## Pre-Juvenile 2

### FO-BI Three-Turns in the Field

The skater will perform forward three-turns alternating to backward three-turns covering the length of the rink. One length of the rink will start with RFO-LBI three-turns. The number of sets of three-turns will depend on the length of the rink and the strength of the skater. On the second length of the rink, the skater will perform LFO-RBI three-turns. The end sequence and the introductory steps are optional. This move may start on either foot.

Focus: Edge quality

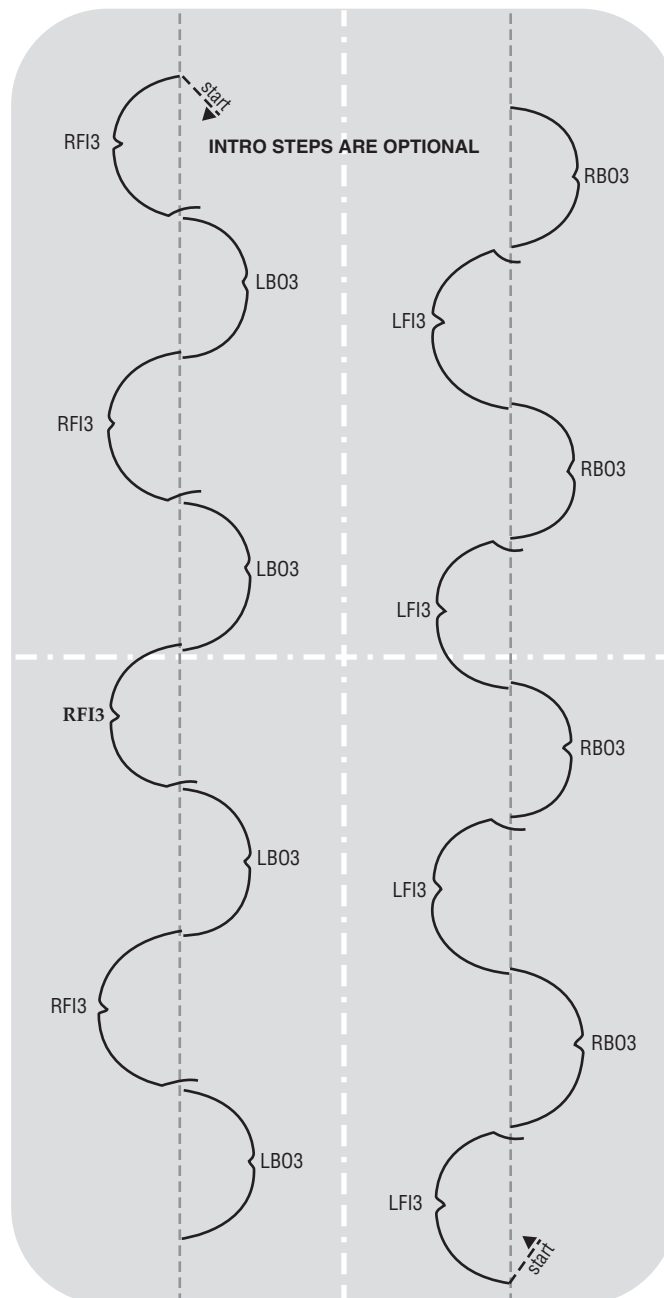

## Pre-Juvenile 3

### FI-BO Three-Turns in the Field

On one length of the rink, the skater will perform RFI-LBO three-turns. On the other length of the rink, the skater will perform LFI-RBO three-turns. The number of sets of three-turns will depend on the length of the rink and the strength of the skater. The end sequence and the introductory steps are optional. This move may start on either foot.

Focus: Edge quality

## Pre-Juvenile 4

### Forward and Backward Power Change of Edge Pulls

The skater will perform consecutive power change of edge pulls — FIO to FOI — for the full length of the rink followed by backward change of edge pulls — BOI to BIO — for the second full length of the rink. The skater will change feet at the center of the rink. The end sequence and the introductory steps are optional. This move may start on either foot.

Focus: Power

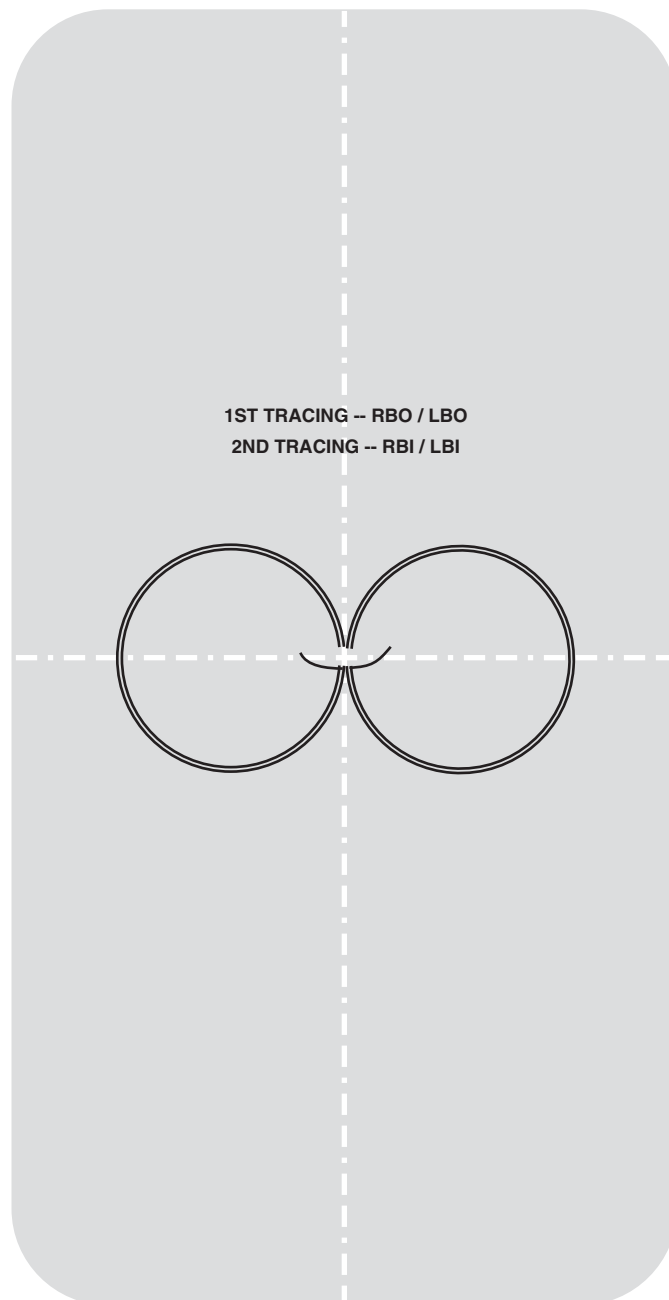

## Pre-Juvenile 5

### Backward Circle Eight

The skater will push from a standing start onto a backward outside edge and complete one backward outside figure eight. Upon returning to center at the completion of the second circle, the skater will perform a backward inside figure eight by pushing onto a backward inside edge, thereby repeating the previously skated circle. The circles should be equal in size with each circle approximately three times the skater's height. The skater may mark the center. This move may start on either foot.

Focus: Edge quality and continuous flow

## Pre-Juvenile 6

### Five-Step Mohawk Sequence

The skater will perform alternating forward inside mohawks, skated in consecutive half circles. Each series consists of a five-step sequence. The skater will skate one length of the ice with four or five lobes. Introductory steps are optional.

Focus: Edge quality
